## Newborn and Infant Sessions

Newborns are best photographed before they are 2 weeks old, preferably between 5 and 10 days after birth. Newborn sessions are usually between 3-4 hours long, allowing plenty of time for feedings, soothing, and a variety of poses and set ups for your baby's unique images.

### {newborn session} \$200

- Session on location
  - Up to 4 hour session
  - Online viewing gallery uploaded within 14 days.
